

WORK ON I. & C. EXTENSION TO CINCINNATI TO OPEN IN SPRING

Charles L. Henry, President of Interurban Line, Says Rushville Route Will be Used

NO OTHER ONE CONSIDERED

Fact That Virgin Territory Will be Entered Makes it the Logical One to Follow

RIGHT-OF-WAY PURCHASED

Subway Being Finished in Cincinnati so Interurban Cars Can Enter City—Follows Canal

Charles L. Henry, president and general manager of the Indianapolis and Cincinnati traction company stated Tuesday afternoon in an interview at his office in Indianapolis that active work on the Cincinnati extension from Rushville would begin in the early spring, and that he was highly elated over the building of the road, which has been his goal ever since the present line was built.

When questioned about the proposed route that the company would take, he stated that that matter had long been settled and that the right-of-way was purchased and secured from Rushville by the way of New-Salem, Andersonville, Metamora, Brookville, Harrison, O., and into Cincinnati.

The question of extending the line from Connersville or Greensburg, he stated, had long since been dropped and that it was the purpose of the extension to open up a virgin territory with no close opposition. The company has already expended a large sum of money in purchasing the right-of-way.

Mr. Henry has on display in his office photographs of the work being done in Cincinnati in preparation for receiving interurban cars. The tracks are being placed in the bed of the abandoned canal and the I. & C. line will connect at the north end of the city with the new tracks, eliminating practically all of the surface traffic, as the tracks are to be in the subway.

The canal bed is being covered over with concrete walls, and the double tracks will run underneath, with a boulevard or street on top.

This work is rapidly nearing completion, and will be ready for entrance into the city, before the extension can be made.

The surface cars in Cincinnati are of a narrow gauge, and the traction cars cannot operate on them, which has prevented Cincinnati from becoming an interurban center.

Mr. Henry stated that he had been informed that Connersville and Greensburg were each expecting the extension, and that a man of prominence had called on him from Connersville last Friday, but this gentleman had been sent home with very little satisfaction from a Connersville standpoint.

He stated also that he had been informed that a delegation of business men from Connersville was planning to visit his office in an effort to have the line extended from Connersville, but Mr. Henry only smiled at the idea, intimating that the delegation would save time by not making the trip.

He emphasized the importance of touching a new territory, rather than attempting to offer opposition to a steam line, and pointed out the enormous amount of freight traffic that would be handled from the new points along the line.

Declares The "Never Works" Are in Majority

Fred Smith, Formerly of Clarksburg, European Traveler and Electrical Engineer, Addresses Rotary Club Regarding Habits and Customs of Spanish People, Whose Chief Occupation is "Living Without Working."

Picturesque Spain, where the chief occupation is "living without working," was graphically pictured by Fred Smith, European traveler and electrical engineer, and formerly of Clarksburg, who spoke to the Rotary club at the regular noon luncheon Tuesday.

Mr. Smith, who is back from a several years' stay in Europe, most of which time was spent in Spain, and has been visiting relatives in and near Clarksburg, was invited to speak to the Rotary club regarding his experience in Spain.

Eloquently, and showing that he had put to good use a rare power of observation, Mr. Smith portrayed the habits and customs of the people of this old nation, which has been overrun by seven peoples, each of which has left its impression on the civilization. The Moorish ideals prevail, he asserted, because the Arabs were in control of Spain for seven centuries.

Mr. Smith asserted that Spain is a decadent nation; that the race of men is decaying physically, and that the woman are still held in semi-bondage, due to the Moorish ideas which have never lost caste.

Mr. Smith's talk was thoroughly enjoyed by the Rotarians because of its conciseness and its wealth of information. Other visitors present were Charles Wilson of Hammond, Ind., Glen Thomas of Chicago and Harry Logan of Clarksburg.

U-BOAT AGREEMENT IS A FLAT FAILURE

France Turns Down American Program and Effort by Arms Parley to Limit Submarines Ends

DISCUSSION IS CLOSED

French Attitude Brings Expressions of Regret—Auxiliary Craft Will Come Next

(By United Press)

Washington, Dec. 28.—The effort by the arms conference to limit the use of submarines ended in failure today when France flatly turned down the American program.

The discussion of submarine limitation is now definitely closed, members of the American delegation declared. The French government demanded a minimum of 90,000 tons in submarines at today's session of the naval limitation committee. This was done on instructions just received from Paris.

The French attitude brought expressions of regret from Arthur Balfour, representing the British, and Japan and Italy delegations. The British and Japanese served notice that if France would not agree to reduction of submarines, they would insist upon building as many submarines as they wanted. The committee left the matter in that state.

American delegates said there would be no reopening of the subject at this conference due to the French attitude. An attempt, however, will be made to reach an agreement to limit the size of the auxiliary craft.

The French delegation accepted the 175,000 tons of capital ship allotted under the 5-5-3 scale but made conditions as to replacement and duration which does not disrupt the battleship program.

Besides asking for 90,000 tons of submarines, France asked for 330,000 tons of auxiliary craft.

RIDDLES HUSBAND'S BODY WITH BULLETS

Florence Simmons, 21, Kills James Simmons as She Receives Word of Fathers Death

MORAL PERVERT, SHE SAYS

Indianapolis, Ind., Dec. 28.—Mrs. Florence Simmons, 21, riddled her husband's body with bullets today as a message came over their telephone wire that her father was dying in Louisville.

In a straightforward story to police who found the body of James Simmons, 30, lying in a pool of blood at the home, the young wife declared her husband was a moral pervert and had threatened her life many times during the night.

According to the story she told police, her husband came at her with a revolver and she rushed to the telephone to summon help. As she picked up the receiver, a voice on the other end of the wire told her of her father's condition in Louisville.

The husband was at her side then, she said, and she knocked the gun from his hand. In the struggle that ensued, she obtained the gun and fired "two or three times."

Four bullets entered the body, the coroner said upon investigation. One pierced the abdomen, one through the breast, one entered the chin and came out the back of his head and a fourth entered the head in front of the right ear.

Mrs. Simmons surrendered willingly to the police and gave them the gun, a .32 calibre automatic.

LIBERAL RESPONSE IS MADE TO APPEAL

Checks Come by First Mail After Circular Letters Are Sent Out by Near East Relief

ONE OF THEM FOR \$100

Included With Circulars Are Return Envelope and Earnest Appeal For a Cash Gift

A liberal response to the circular letters asking support of Near East Relief, which were placed in the mails Tuesday, was reported today by Ralph Payne, treasurer of the county organization, indicating that a number receiving the appeal replied at once.

Included among the checks was one for \$100 from a Rushville citizen. This was the most liberal gift made, the others being for much smaller sums. But local Near East relief workers were very much encouraged at the early responses and believe that many others will mail a check when they have time to give the matter some thought.

The circular letter is on the stationery of the Indiana branch of Near East Relief and is headed "Christmas Season, 1921." The stationery is a light brown with a white border and blue and black lettering and makes a very attractive letter. It is signed by Governor Warren T. McCray, honorary chairman of the state campaign; Secretary of State Ed Jackson, state chairman, and George C. Wyatt, county chairman.

Enclosed with the letters was a group picture of refugee children taken at Erivan, Russian Armenia; an envelope addressed to the county treasurer, and a negotiable check made payable to Near East Relief, with a place for writing in the name of the bank. Attached to the check was a slip bearing the picture of the Near East Relief orphanage at Alexandropol and on the other side, a statement pointing out that there are 100,000 children in the land where Christ was born gathered by Near East Relief into orphanages and homes, and another hundred thousand for whom there is no room—anywhere.

"In the memory of the Christ child," says the statement, "will you not provide shelter for one of His little ones on this His birthday?"

It is explained both in the literature and in the circular letter that from Russia to Palestine, from Persia to Thrace, \$5.00 per month saves a child; \$100.00 per year supports a child.

WITHDRAWALS TO BE PERMITTED

Country Club Stockholders Vote to Allow Members to Seek Refund Until January 10

INNIS PROPOSAL IS REFUSED

Board Reports Terms Imposed by Owner of Proposed Site Could Not be Met by Club

The holders of common stock in the Rush County Country Club voted, at a meeting in the court house assembly room Tuesday night, to permit anyone holding common stock to withdraw his money up until January 10, 1922.

This action was taken following a report of the directors that they could not meet the terms imposed by Robert A. Innis for the purchase of a tract of land north west of the city which was proposed for a country club site. Mr. Innis' proposition was that the club pay \$9,000 cash, \$1,000 on the first day of February, 1922, and the balance of \$2,375 on the first day of May, 1922. The board of directors had previously voted at a meeting on last Wednesday afternoon not to accept the proposal, a majority of the board holding that these terms could not be met because all of the men who agreed to become shareholders in the club, had not paid all or part of their stock subscription of \$100.

Robert L. Tompkins, vice-president, in the absence of Dr. J. C. Sexton, president, who is out of the city, presided at the meeting and Will O. Feudner acted as secretary. There were present forty-six owners of common stock, by actual count.

Only one owner of stock arose to his feet and expressed opposition to the Country Club although there have been many reports that considerable opposition to the organization has developed. On the other hand, however, several stockholders expressed a desire to see the Country Club go ahead with preparations for completion of the organization and the purchase of a site.

Mr. Tompkins said that the board of directors had another site in view which could be bought on terms that could be met by the club, but nothing further was said about the new site or the terms because no one questioned the vice-president about it.

There was a disposition among some of the members to settle the matter at the meeting because every stockholder had received a notice that the meeting would be held, but others believed that every stockholder should be given an opportunity to withdraw, if he chose to. When the time limit expires, it is probable another meeting will be held and the members who wish to remain in the club will determine whether or not they can go ahead with the project.

Members will be notified by mail in a few days regarding the action of the meeting and will be informed as to where they may obtain the money they paid for common stock.

The expenses of the organization will be prorated among the stockholders and the amount deducted from each share of stock whenever a refund is made.

ITALY HAS SIGNED RUSSIAN TREATY

M. Vorowski and Della Torretta Affix Signatures to Document Which Will Re-establish Trade

CONTAINS TEN ARTICLES

Announcement of Signing Indicates That Agreement Had Been Reached to Re-establish Relations

(By United Press)
Rome, Dec. 28.—Italy has signed a treaty for resumption of commercial relations with Russia.

M. Vorowski, soviet representative and Minister of Foreign Affairs, Della Torretta affixed their signatures to the document which will re-establish trade between the two countries.

The Italian-Ukrainian treaty was signed at the same time.

The treaty virtually reestablishes diplomatic relations between the two countries. It stipulates the agreement "to facilitate an immediate resumption of trade." A general economic treaty will be negotiated later. The pact contains ten articles which provide:

Italy and Russia mutually agree to abstain from hostilities, propaganda, boycotts and blockades against each other.

Mutual agreement to recognize passports, perfect postal and telegraph communications and the reciprocal rights of ships in port.

Both shall receive commercial missions, which will enjoy certain diplomatic privileges of posts and telegraphs. All products may be exchanged except alcoholic drinks except from Russian taxes. The soviet shall not demand from Italy funds owed the old Russian regime.

The soviet agree there will be no requisition of merchandise imported from Italy and that all Italians in Russia shall be repatriated.

The Italian-Ukrainian treaty is exactly the same.

Vorowski announced he would leave for Moscow tonight to consummate the pact as soon as possible.

The trade treaty has been pending for weeks. The Chamber of Deputies several times have signified their disapproval of it and the soviet have refused to sign it until they were to obtain resumption of full diplomatic relations.

The announcement that the treaty had been signed was taken as an indication that an agreement had been reached to re-establish former political relations.

Russia now has trade treaties with Italy, Austria, England, Germany, Norway, Persia, Turkey and all the Baltic states. She now has representatives in Greece and Sweden arranging such treaties. France, Holland, Belgium and Denmark are the only European countries which have refused to establish trade with the soviet.

SEES DOWNFALL OF LIQUOR TRAFFIC

"Pussyfoot" Johnson Likens England's Position to a Hen Who Has Hatched a Litter of Ducks

FIRST HATCHED OUT U. S.

Difference Between London and U. S. is One is Dry 24 Hours a Day and Other 16 Hours

By DON E. CHAMBERLAIN
(U. P. Staff Correspondent)

Westerville, Ohio, Dec. 28.—The downfall of the British empire—liquorally speaking—was predicted heretoday by William E. ("Pussyfoot") Johnson, international prohibition organizer.

"Pussyfoot", back in his home town for a short rest after a strenuous tour abroad, likened England's position to a hen who has hatched out a litter of ducks.

"England is in the position of a hen who has hatched out a litter of ducks who take to the water," he said.

"First they hatched out the United States and it is completely dry. Then they hatched Canada which is partly dry, New Zealand which is dry and New Zealand which probably will vote itself dry next November and Australia, South Africa and India which are rapidly heading towards prohibition."

The only difference between London and the U. S., he said, was that the U. S. was dry 24 hours of the day, while London is dry 16 hours. Londoners, he said, are allowed to buy drinks only between certain hours.

"I tried to tell them there is only a matter of eight hours difference between us, but they only look blank", said "Pussyfoot".

Ireland, he said, will go dry before England.

Sinn Feiners he declared had adopted total abstinence in the Irish republican army.

A prominent Sinn Fein told me this was because they had so many secrets that they could not afford to have any one around who wasn't a total abstainer", he said.

Just as soon as the Sinn Feiners get straightened around they will put an end to liquor in Ireland, he predicted.

Johnson said he received a marvellous reception in India.

"More than half the country is dry", he said. "Ceylon with its population of 5,000,000 will be dry within a year."

"Pussyfoot" will start out on another dry tour next week. He will invade the southern states, opening at Asheville, N. C. Jan. 4.

Johnson doesn't feel any animosity for the London students who poked out one of his eyes while hearing him last year.

"The British are good sports, but they didn't know me" he said.

It was reported at the hospital today that he is threatened with pneumonia due to the exposure suffered.

"YOU LITTLE SHRIMP", 1921 INVENTORIES NEED NOT BE HARD

Maurice Mendenhall, State Official and O. L. Bartlett of Oil Refining Co., in Battle

FOLLOWS BLUE SKY HEARING

(By United Press)
Indianapolis, Ind., Dec. 28.—A fist fight between Maurice Mendenhall, administrator of the "blue sky" law, and O. L. Bartlett, president of the Indiana Oil Refining Company of Columbus, threw the state house into excitement late yesterday.

"Liar" was hurled back and forth between the two men before the fight. Mendenhall undertook investigation of the company for which a receiver has been appointed in the Bartholomew circuit court. The company was authorized by Mendenhall to sell \$400,000 of common stock last December. During the hearing, Mendenhall accused Bartlett and his company of violating the blue sky law.

State officials and attorneys separated the men after a few clinches and a few blows. The fight took place in the office of Secretary of State Ed Jackson under whose direction Mendenhall works.

According to Bartlett's version, Mendenhall accosted him in Jackson's office following the hearing and said:

"Don't you ever dispute my word in public again and make me out a liar when you are the liar," to which Bartlett replied:

"You little shrimp, I didn't call you a liar."

And the fight was on.

The reports threw a damper on the elaborate preparations for celebrating the advent of the new year. Warnings were issued that poison booze is in circulation and the result was manifest in the decreased number of reservations made in places where the old year is kicked out and the new welcomed in with hilarity every New Year's eve.

Language of Revenue Act of 1918 And of 1921 Relating to Inventories is Identical

TAXPAYERS GIVEN CHOICE

Regulations Provide Inventories Must be Valued at Cost or Market Whichever is Lower

The following statement is issued by M. Bert Thurman, Collector of Internal Revenue, District of Indiana.

Merchants, manufacturers and business men generally need experience no difficulty in taking their inventories for the year 1921 to conform with the new revenue act. The language of the Revenue Act of 1918 and the Revenue Act of 1921, (Sec. 203), relating to inventories are identical.

"That whenever in the opinion of the Collector the use of inventories is necessary in order clearly to determine the income of any taxpayer upon such basis as the Commissioner, with the approval of the Secretary, may prescribe as conforming as nearly as may be to the best accounting practice in the trade or business and as most clearly reflecting the income."

Present Treasury regulations provide that inventories must be valued at either "cost" or "cost or market, whichever is lower." Taxpayers were permitted, regardless of their past practice, to adopt the "cost or market basis, whichever is lower" in making their inventories for 1920. Thereafter, the regulations provide, changes can be made only after permission is obtained from the Commissioner of Internal Revenue.

In the case of a merchant "cost" means the invoice price less trade or other discounts, excepting strictly cash discounts approximating a fair rate of interest, which may be deducted or not at the option of the taxpayer, providing a consistent course is followed. To the net invoice price should be added the cost of transportation and other necessary charges incurred in acquiring possession of the goods.

In case of a manufacturer "cost" means the cost of raw materials and supplies, expenditures for labor and indirect costs incident to production, including a reasonable proportion of management expenses, but not including any cost of selling or securing return on capital.

"Market" means the current bid price prevailing at the date of the inventory for the particular merchandise. The burden of proof as to the correctness of the price rests upon the taxpayer in each case. Where no open market quotations are available, the taxpayer must use such evidence of a fair market price at the dates nearest the inventory as may be available, such as specific transactions or compensation paid for cancellation of contracts or purchase commitments. Where, because of abnormal conditions the taxpayer has regularly sold merchandise at prices lower than the market bid price, the inventory may be valued at such price. The correctness of such prices will be determined by reference to the actual sales of the taxpayer for a reasonable period before and after the date of inventory. Prices which vary materially from the actual prices ascertained will not be accepted as reflecting the market.

The value of each item in the inventory may be measured by cost or market, whichever is lower. An entire stock may not be inventoried at cost and also at market price, and the lower of the two inventories used. Inventories on whatever basis taken will be subject to investigation by the Commissioner of Internal Revenue, and the taxpayer must satisfy the Commissioner of the correctness of the prices adopted. He must be prepared to show both the cost and the market price of each article included in the inventory.

In the conduct of modern business it is of utmost importance that every business, large or small, whether corporation, partnership or individual, shall maintain an exact record of receipts and expenses. No special system of accounts is prescribed by the Bureau of Internal Revenue, but the books should show in detail inventories, purchases, capital investments, depreciation, and similar items required in making up income tax returns.

THIN, FLAT HAIR
GROWS LONG, THICK
AND ABUNDANT

"Danderine" costs only 35 cents a bottle. One application ends all dandruff, stops itching and falling hair, and, in a few moments, you have doubled the beauty of your hair. It will appear a mass, so soft, lustrous, and easy to do up. But what will please you most will be after a few weeks use, when you see new hair—fine and downy at first—yet—but really new hair growing all over the scalp. "Danderine" is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. This delightful, stimulating tonic helps thin, lifeless, faded hair to grow long, thick, heavy and luxuriant.

It is the expression of the perfect and unimpeded work of every part of the machine known as the body, working under the control of an intelligent director, operated by an unseen force called nervous energy, each cell, gland or organ elaborating its peculiar product, and contributing a full quota to the carrying on of the work as a whole.

Safety in Banks
An Indianapolis grocer was robbed of a large sum of money last night. It represented the receipts from his business on Friday, Saturday and Tuesday. He carried the

money on his person rather than depositing it in a bank, which is organized for such a purpose.
That sort of reasoning has fortunately passed, and there are now comparatively few people who distrust banks and prefer to hoard their savings and carry them about personally or hide them in cupboards and sugar bowls and behind loose bricks, and other similar places. Banks are recognized as much more secure than any "hiding hole" that can be found.
The war did a good deal to bring the banks into use by the people. The sale of Government bonds through them set up a much more wholesome relationship. Great numbers of people found that secreted money was not really working after all, and that money is only useful when it is at work. That Indianapolis merchant perhaps never figured out that if he loaned this money at 6 percent, or bought first-class security at that rate, he would be \$1,740 to the good every year. Or, if he put it in the bank in a saving account at 3 percent his annual return would be \$870, compounding. In other words, he was losing at least \$870 a year whether he kept the money safely or not, losing it just as surely as though somebody had taken it from it. Now he has lost principal as well as interest.

The Lynching Record For 1921
At this season, the attention of people is annually directed to the black spot on America—lynching. The record is compiled by the department of records and research of the Tuskegee Normal and Industrial Institute, a school for the training of those put to death were charged. There were 63 persons lynched in 1921. Of these, 62 were in the South and 1 in the North. This is two more than the number, 61 for the year 1920. Of those lynched 59 were negroes and 4 were whites. Two of those put to death were Negro women. Nineteen, or less than one third of those put to death, were charged with rape and attempted rape. Four of the victims were burned to death. They were put to death and then their bodies were burned. The charges against those burned to death were: murder, 2; rape and murder 2. The offenses charged against the whites were murder 3, rape 1. One of the women put to death was charged with assisting man to escape who had killed an officer of the law. The other was charged with inciting racial troubles. The offenses charged against the negro men were murder, 11; attempted murder, 3; rape, 15; attempted rape, 3; killing men in altercation, 4; no special charge, 3 wounding men, 4; furnishing ammunition to man resisting arrest, 2; leaders in race clash, 2; charge not reported, 3; assisting man to escape who had killed another, 1; entering young woman's room, 1; insulting woman, 1; writing note to woman, 1; attacking a man and woman, 1.
The states in which lynchings occurred and the number in each state are as follows: Alabama 2; Arkansas, 6; Florida, 5; Georgia, 11; Kentucky, 1; Louisiana, 5; Mississippi 14; Missouri, 1; North Carolina, 4; South Carolina, 5; Tennessee, 1; Texas, 7; Virginia, 1.
According to the records, there were 72 instances in which officers of the law prevented lynchings. Of these 8 were in Northern States and 64 were in Southern States. In 1920 there were 56 such instances, 46 in Southern and 10 in Northern States. In 66 of the cases, the prisoners were removed, or the guards were augmented, or other precautions taken. In 6 instances armed force was used to repel the would be lynchers. Concerning the cases of lynching there were 19 instances in which prisoners were taken from the jail and 16 instances in which, before reaching a jail, they were taken from officers of the law.

The governor has called a conference on law. Its success would be assured if it were certain that the paring knife was to be applied in the same way it has been used on naval armament by the arms parley.
Since Eugene V. Debs has been exploited sufficiently by the press, it is proper that he be relegated to the limbo of "lame ducks" where he belongs.
In spite of the scarcity of money in some quarters to provide food for the family, few men may be found who will eat their words.
Releasing men from prison does not always convince them that they are wrong.

FOREIGN TRADE DECLINES
Washington, Dec. 28.—Trade between the U. S. and Europe fell off approximately 50 percent in value during the first 11 months of this year in comparison with the same period last year, the department of commerce said today. Exports fell from \$7,507,000,000 last year to \$4,189,000,000 this year and imports dropped from \$5,012,000,000 to \$2,271,000,000.

I. O. O. F SCORES NOTABLE VICTORY

Takes Carmel Kelts, Heretofore Un-
defeated, Into Camp to the Tune
of 30 to 26

MARTIN LEADS THE SCORING

Long Center Cages Seven Field
Goals and Team Mates Contri-
bute Much to Victory

The Odd Fellows scored a notable
victory last night over the fast Carmel
Kelts, an undefeated team this
season until they came here, the
score being 30 to 26, in one of the
fastest and most exciting games ever
witnessed on the Modern Appliance
floor.

The visitors had played eleven
games with a perfect record this
season, and they were equally as
confident of taking the Odd Fellows,
but the local team hit a fast stride
early in the game and managed to
keep a few points ahead, leading at
half time by a 16 to 13 score.

The Carmel team scored first in
the game on a field goal, but the Odd
Fellows tied up the count soon af-
terwards. The score at one time was
7 to 4 in favor of the visitors, but
Rushville managed to tie up the
game, and take a lead, and from
this time on Carmel could not catch
up.

Martin lead the scoring for Rush-
ville, and played his best game of
the season, getting seven field goals,
and Brown played a good game at
forward, getting a couple of field
goals, during the time that he was in
the line-up.

Every member of the Odd Fellows
team was up and coming and had the
old fighting spirit that has heretofore
been missing this season. It is
believed that they have set their pace
now, and will continue to win games.

They will go to Carthage Thurs-
day night to meet the Yankee Five
team, and this game also will be a
hard one, as Carthage has a strong
team, and has won most of the
games played this season. A delega-
tion of rooters will go along with the
team tomorrow night.

The Carmel team played clean ball
and the bright stars on their team
were Cotton and Bowen, the two for-
wards, who led their team in scoring.

The line-up and summary of the
game last night:

Odd Fellows (30) Carmel Kelts (26)
Stoops -----F----- Cotton
Shaw -----F----- Bowen
Martin -----C----- Hobbs
Titsworth -----G----- Carey
Norris -----G----- Pursell

Substitutions, Rushville, Brown
for Norris, Thorpe for Stoops, Beck-
er for Shaw, Norris for Titsworth,
Stoops for Thorpe, Carmel, Carson
for Pursell. Field goals, Martin 7,
Stoops 2, Brown 2, Thorpe, Tits-
worth, Cotton 4, Bowen 3, Hobbs 2.
Foul goals, Shaw 4, Bowen 8.

ONE MORE CHAPTER TO 1921 FOOTBALL

In Downing Arizona, Centre Leaves
it to W. & J. to Put Finishing
Touches on Season

GOING WITH THEIR EYES OPEN

Washington-Jefferson Knows What
It's up Against in Playing Cali-
fornia Monday

By HENRY L. FARRELL
(By United Press)
New York, Dec. 28.—Just one
more chapter remains in front of the
last page of the season's football
book.

In Downing Arizona Tuesday 38
to 0, Centre college left it up to
California and Washington and
Jefferson to put on the final touches
on next Monday in Pasadena.

Centre won and did justice to the
praying colons. Perhaps on the
coast it might be regarded as a vic-
tory for the east. Geographically,
however, Centre is no more a repre-
sentative of the seat than Arizona is
a full fledged representative of
coast foot ball.

The California-Washington &
Jefferson game can be regarded as
one of the big featured games of a
season that sparkled with brilliant
contests.

At first the east did not think so
much of the selection of Washington
and Jefferson but when it learned
that the presidents were the only big
team that could make the trip, sen-
timent changed. If there is anyone
to be surprised in that game it must
be California because Earl Neal is
taking his charges to Pasadena with
their eyes opened. Ohio State went
out blind last year and they saw the
light after a rather painful opera-
tion.

Neal has put in some of his time
developing a defense for the forward
pass which is regarded as Andy
Smith's most formidable weapon.
Neal has some valuable help from
Back Ward, one of Ohio States best
scouts who saw the game last year
and who turned over his observa-
tions to the Washington and Jeff-
erson coaches.

The presidents have a worthy
team and they are fit representatives
of the east although some of the
critics on the Atlantic coast are in-
clined to discount their record be-
cause of a light schedule in compar-
ison with some others that big east-
ern teams went through.

If McMillan, the star California
tackle, and Stein the all-American
tackle of the presidents, should play
opposite each other the coast will
get the great treat that the east got
when Stan Keck of Princeton and
McGuire of Chicago battled.

AMUSEMENTS

Six Reels in "The Kid"

Rumors which have been current
in the motion picture industry that
Charlie Chaplin longed to forsake
the field of buffoonery and appear in
a dramatic role on the screen have
been verified as having a substantial
basis, for the picture has been com-
pleted. The idea, however, that he
would adopt the matinee idol make-
up and attempt to make the public
forget the character which is iden-
tified by his name all over the world
is merely a mistaken idea engendered
from the report that he was
working in a dramatic picture.

The comedian has accomplished
the impossible in his latest picture,
"The Kid." First National's six reels
of joy, which will be the attraction
at the Princess Theatre today and
Thursday. Directors, previous em-
ployees and others associated with
him in his screen career had pro-
nounced it impossible—that he ap-
pear in his screen character in a
semi-dramatic story and succeed in
gaining sympathy as well as laughs
from his audiences in the plight
which the plot developed.

In "The Kid," however, according
to critics and others who have seen
it, he accomplishes it. Charlie is
there in the same character which
has gained him the place as the
world's most popular comedian, but
in situations which combine an oc-
casional sob with shrieks of laugh-
ter. Charlie becomes the guardian of
a two weeks old baby, and expends
upon him all the love and devotion
that any father could. His character
however, makes his every attempt a

humorous circumstance, but the
heart throbs are ever present in the
main theme of the story.

Coming to Mystic Friday

Peter B. Kyne, who wrote "The
Sheriff of Cinnebar", from which
was adapted "Red Courage", which
is to be shown at the Mystic Theatre
Friday is, besides being one of
America's most celebrated writers a
soldier of two years. He enlisted in
Co. L 14th U. S. Infantry in 1898.
was a member of the third expedi-
tion to the Philippine Islands, and
a Captain of the 144th Field Artil-
lery in the World War.

"Red Courage" is not the first
Kyne story to be adapted to the
screen by Universal, as "The Three
Godfathers", one of the famous au-
thors' strongest and most virile sto-
ries was purchased as a starring ve-
hicle for Harry Carey some time
ago. M. Kyne is a Californian by
birth, having been born in San Fran-
cisco, where he received his educa-
tion. As a lumber clerk for the fam-
ous Dollat transportation lines Mr.
Kyne got the material for his clever
"Cappy Riels" stories, which have
had a reading public of more than
10,000,000 persons.

Mr. Kyne is at present residing
in Berkeley, where he is writing
magazine stories and novels, one of
his latest stories being "The Green
Pea Pirates". He spent some time in
Los Angeles studying first hand the
moving picture field and he plans to
write a series of scenarios shortly,
directly for the screen.

New York, Dec. 28.—Opposition to
professional football as a menace to
the collegiate sport was the first
move taken last night after the or-
ganization of the American Foot-
ball Coaches Association. It was
recommended that college players
playing professional football have
their letters taken away and officials
who worked in programs to be re-
moved from the eligible list for col-
legiate games. Officers elected were
President, Major Charles Daly of
West Point; Vice president John
Heisman, Penna; secretary-treasur-
er, J. W. Wiley, Ohio State; board
of trustees, Robert F. Fisher, Har-
vard, and Fielding H. Yost, Michi-
gan.

Changes in rules governing the
shift, clipping and interference with
defending players on the forward
pass were discussed but no action
was taken.

MRS. DELLA KUNZE.
Chicago, Ill.

"I understand now why so many people praise Tanlac as I have tried it myself and it certainly is a wonderful medicine," said Mrs. Della Kunze, 856 Lill Ave., Chicago, valued employee of the Boston Department Store:

"I eat with so much zest and enjoyment now that my family really joke me about it. A short time ago, however, I had absolutely no appetite and was eating so little that I was losing weight and strength every day and I suffered so much from indigestion and nervousness that I was on the brink of a breakdown.

"There are absolutely no words that can express my delight at the remarkable and immediate results I obtained from Tanlac. It benefited me in every way. Instead of being depressed and melancholy and tired and worn out I am full of life and energy and cheerful and happy all the time. I've gained twelve pounds in weight, too."

Tanlac is sold in Rushville by F. B. Johnson Drug Co., and by leading druggists everywhere. Advertisement.

Immoral Women Come From Country

Chicago, Dec. 28.—Nearly 75 per cent of immoral women are from smaller cities and the country.

This statement was made by B. S. Steadwell, Lacrosse, Wis., president of World's Purity Federation, which is holding a three day international conference here.

"Of course," said Mr. Steadwell, "these figures are not absolutely reliable, because it is impossible to secure exact data but I believe they show the situation. Girls from smaller towns find that their pay is not sufficient and that their virtue is their largest asset. The minimum wage has helped overcome this phase considerably however. Other causes for this condition are that country girls arrive in the larger cities are usually friendless and they have not had a sufficient education."

Several hundred delegates are in the city to attend the conference.

Maurice Gregory, London, who has made a world wide study of vice, in address pointed out that moral suasion has accomplished much more than forcible medical methods. He spoke in opposition to state compulsory regulation and urged the establishment of free clinics.

The conference will take stand against state regulation of compulsory nature and urge the establishment of a free treatment.
